Observations made the writer intended to be objective and relevant to the research results. Observation is a method of data collection with method observation or research in a way that carefully studies the data. The results in study This is Design product digital dictionary for BIPA learners can be one of solution For finish problem reality in the field. Design dictionary the get response positive from BIPA practitioners and learners, Forms digital dictionary is considered more efficient, economical and friendly environment Because moment This almost everyone has smartphone.

Keywords: form vocabulary, meaning vocabulary, legend, digital dictionary, BIPA learning.

Language and literature in its implementation are related and cannot be separated. Language is the main component in the use of literary works. Language used as device in convey ideas, thoughts and feelings in disclose literary works. This is in line with Semi's opinion in Fitriani (2021) that literature is a form and result of work art creative whose object is man in his life use Language as the medium. Mastery vocabulary in learning foreign languages is important because it is based on effective communication. Mastery good vocabulary helps increase overall understanding

of foreign languages, including grammar and sentence structure. Buadanani and Suryana (2022) also mentioned that mastery vocabulary can influence the skills to speak to someone. This is because, with mastery, good vocabulary can allow for easier understanding of the text they read and hear in foreign languages (Lestari and Mustika, 2021). From this statement, it can be said that the existence of a good understanding of vocabulary will help learners understand meaning and context. In addition, the ability to understand and use proper vocabulary also expands insight and knowledge about culture as

well as context language foreigners who are studied.

Each area has different stories, with typical characteristics and customary customs. According to Sinamo, Herman, and Marpaung (2023), fairy tales are stories inherited orally from generation to generation, with no known name for the author. According to Amalia (2018), fairy tales can be become three category big: myths, legends, and fairy tales. Myths are stories people who are believed to have happened once and are considered sacred by society. Myth is a myth that happened in the past, but the public does not consider it holy or sacred. On point to this, a fairy tale is a story that people do not know about the truth. Story people are the most common sources of information conveyed to public locals. Although the story varies greatly because of his words, the Content story shows the same thing. The moral message conveyed in tradition can relate to connections with God, self, self, human, environment, or nation. Story and content stories can be used as a method for teaching people. Stories often refer to learning and entertainment for children (Purba et al. 2024). Form legend story in the form of story oral or not written so that experience distortion and frequent Far differ from the story the original. Therefore, if the legend story is about to be used as materials, data, or source to reconstruct history, parts of the legend story must, moreover, be formerly cleaned up from content properties folklore.

A study based on culture aiming to evaluate connection between moral intelligence and awareness teacher self at school based on Islamic education. The modern era is full of challenges that, besides bringing change based on self-humans, also cause dynamics certain in various aspects of his life. Crisis must penetrate the dimensions of the most stable human, even though it causes profound transformation. Changing the push emergence education about the material and spiritual aspects of human life, the emergence returned spiritual orientation, and the search better understood religion and its use.

In line with religious education and for to study connection between religion and spirituality, a group scholar has made an effort introduce concepts new in the field this with explaining data and observations they (Munthe et al., 2024) Book comics are easily found in various publications, but none of them book a good and popular reader. The style of a book story, based on language and style, influences its readers. Therefore, the election book of a suitable story for children is one of the conditions in appropriate education with local culture and also preserves the good culture area. Device Language For story child should in accordance with level development Language children, such as simple words and using simple sentences for children easy digest and remember it. One of challenge for educators and parents is choose material reading For suitable child with development child.

Indonesia is rich in diverse cultures (Waring and Nation, 1997). This is a power pull for international society to learn Indonesians. Constitution Number 24 of 2009 concerning the flag, language, and National Emblem makes Indonesian an International Language. One form of diplomacy between Indonesia and other countries is through the Bahasa Indonesia for Speaker Foreign (BIPA) program. The material in BIPA learning introduces the Indonesian Language and Culture to foreign inhabitants. The interest of citizens who are foreign to the Indonesian nation has significantly improved. This can show viadata 2023 recorded as many as 72,746 students of foreigners who have learning Indonesian Language and Culture (Ivins, 2011).

Language is tool communication that is the most complex and, at the same time, the simplest human being. There is no communicative behavior as broad and as great as verbal communication in human life (Sutiyatno, 2018; Sutrisno et al., 2023). Language, a mechanism consisting of symbols and rules, allows us to communicate with one another. The goal of the main language is to ensure smooth communication (Sastromiharjo et al., 2024). At

the level of learning a language, writing is level learning. In writing, BIPA students must be capable of pouring ideas into various essays. Good speech is speech that has cohesion and coherence (Brown and Yule, 1996). BIPA students are expected to use conjunctions in writing. The important thing is that his writing follows the principle of correct and understandable writing, understanding the reader's good form and meaning. However, the results still show his inability to use different combinations and combinations, and all BIPA UPTP2B students are students who study at various majors at Sebelas Maret University, so that important for their own ability to write carefully and precisely. Therefore, it is necessary to teach forms of blending to BIPA students as teaching materials for writing Indonesian to foreign speakers (Widodo et al., 2024).

Lexicology is a field knowledge language that studies or investigates vocabulary that becomes runway written; in other words, lexicology is a branch of knowledge linguistics that discusses the meaning of words (Salim & Yamat, 2022). By etymology, lexicology originates from the word in Greek language, namely lexicon meaning 'speech, speaking, or word' (Azizah, Rosidin, and Devi, 2022). Lexicon, according to Kridalaksana in Setiawati et al. (2024), is a component language that contains all information about the meaning and use of a word in language. In addition, the lexicon has the same meaning as vocabulary. The Indonesian language teaching institution for Speaker Foreign Affairs (BIPA) is an Indonesian language teaching program intended for foreigners. The subject of BIPA learning is foreigners. BIPA learning gradually enables foreigners to master Indonesian in general. BIPA students are foreign students with a background of language and culture that are not the same as the culture in which the language is being studied. According to Purba et al (2024), culture is part of Language The same like Language is part of culture, so that both are related (Paramasuta & Kabul, 2021). Activity Study

teaching BIPA to leave curriculum courses and train Indonesians for foreign speakers. Thus, an appropriate BIPA curriculum, comprehensive teaching materials, qualified teaching staff teachers, and facilities infrastructure are adequate to support BIPA learning. One of the devices are very supportive learning effectiveness Study Indonesian for foreigners is teaching materials (Qomariyah, 2018)

Research Methods

The qualitative method used in this study was this type of study. Research qualitative is a research that aims to learn related phenomena with object research, such as behavior behavior, thoughts, motivation, actions and so on, all of them with help description in the form of words and language, about a subject, understand texture natural and use various method natural. Can it be said that this is done in a way qualitative with describe results study based on the data collected?
